Professional Summary

Executive Assistant with 1 year of full-time experience alongside multiple internships, supporting founder-level operations and driving client engagement. Proven track record in managing complex schedules, drafting professional communications, and preparing impactful sales proposals and presentations. Skilled in advanced MS Office (PowerPoint, Excel, Word), stakeholder relationship management, and multitasking in dynamic environments. Known for enhancing operational efficiency and fostering strong client relationships through effective follow-ups and clear communication.

Experience

Founders Office – Armor | Consumer Electronics Brand

- Support the founder's day-to-day operations, scheduling, and prioritization across product, sourcing, and go-to-market workstreams for a fast-scaling consumer electronics brand.
- Co-manage and drive design sprints across varied product categories, from concept through iteration.
- Research and test molding methods, including 3D-printed molds, to enable faster, low-cost prototyping.
- Create SOPs for assembly and production processes to standardize and optimize workflows.
- Manage inventory and tracking of samples and finished products across the product portfolio.
- Maintain the product launch tracking system, coordinating sourcing, BIS certification, design, packaging, and production timelines to keep launches on schedule.
- Evaluate vendor quotes against a COGS-based sourcing model to protect target margins and flag pricing risks before commitments.
- Support new product development for Kickstarter crowdfunding launches.
- Draft and manage professional communications with suppliers and stakeholders, and prepare proposals, decks, and internal process documentation.
- Coordinate cross-functional execution across sourcing, product, and marketing, handling varying high-priority deliverables daily.

Founders Office – 26ideas | AI-first OS

- Coordinated the founder's daily agenda, 1:1 meetings, and operational execution across business and personal consulting verticals, ensuring smooth workflow and prioritization of high-impact tasks.
- Drafted and managed professional email communications with clients and stakeholders, ensuring clarity, professionalism, and timely follow-ups.
- Supported preparation and delivery of sales proposals and client presentations tailored to specific business needs.
- Conducted client meetings and follow-ups to nurture relationships, drive discussions forward, and identify new opportunities.
- Played a key role in fundraising efforts by creating pitch decks, researching potential VCs, and drafting targeted communications, contributing to successful investor engagement.
- Automated business workflows using n8n, GPT agents, APIs, and other tools, saving 24 hours per week and improving operational efficiency.
- Managed multi-functional tasks across sales, technology, training, and content, handling varying high-priority deliverables daily.
- Increased social media engagement by optimizing content pipeline management, enhancing brand visibility and client outreach.

Founders and Mechanical Lead – DIMENSION SIX TECHNOLOGIES PVT | E-Mobility

- Designed an EV conversion kit for bicycles delivering a 30% performance boost and 30km range, focusing on cost-effective design and manufacturing.
- Led a small team of 3 engineers in developing the product with an emphasis on low-cost solutions.
- Planned the sales and launch strategy targeting 100 units in 3 months, defining customer segments and go-to-market approach.
- Received positive feedback on product natural feel and usability during initial trials before sales launch.

Chief Manufacturing Officer – DJS RACING | Formula-Student Racing Team

- Managed end-to-end supply chain operations, overseeing the global procurement of materials and parts to meet quality and performance criteria.
- Implemented PERT/CPM techniques to effectively plan and manage the manufacturing timeline, ensuring on-time delivery of the final product.
- Directed the entire manufacturing process, ensuring the seamless integration and assembly of all vehicle components.
- Collaborated with sponsors for custom component manufacturing, maintaining high-quality standards.
- Led research and development initiatives to innovate and enhance vehicle components for future models.

Business Plan Lead – DJS RACING | Formula-Student Racing Team

- Led a team of 16 members in the Business Plan Static Event at Formula Bharat, a national motorsport competition.
- Developed business plan centred around the commercial potential of our team's innovative electric vehicle chassis.
- Prepared detailed financial projections and compliance strategies for the business's initial year of operations.
- Collaborated across departments to integrate technical, financial, and market research into the business strategy.
